

COLORADO NATURAL HERITAGE PROGRAM Position Announcement

TITLE:	Utah BLM Riparian & Wetland (Lentic) Monitoring Lead and Field Technicians
POSITION TYPE:	Full-time, temporary
NUMBER OF POSITIONS:	3 in total, 1 Lead Technician and 2 Field Technicians
WORK LOCATIONS:	Salt Lake City, Utah
PAY RATE:	\$16.00–\$18.50, depending on experience and position. \$42.50/day per diem when traveling beyond base location. Health insurance provided.
DURATION:	April 4 th –August 12 th , 2022 (Lead technicians start March 21 st). Dates are approximate.

Summary of Positions

In partnership with the Utah Bureau of Land Management (BLM), the Colorado Natural Heritage Program (CNHP) is seeking 3 experienced field technicians to collect **wetland monitoring data** through BLM's new **Riparian & Wetland (Lentic) Assessment, Inventory and Monitoring (AIM) Program**. Successful applicants will be trained in the methods by Wetland Ecologists from CNHP and BLM's National Operations Center and will spend the summer applying the protocol in wetlands and riparian areas on BLM lands throughout the state of Utah. Quantitative vegetation data will be collected using the line-point-intercept (LPI) method. Additional data collection will include soils, hydrology, water quality, and surrounding land use. **All technicians must be available for the weeklong training beginning April 11th.**

One field team of three technicians (1 Lead Technician and 2 Field Technicians) will be hired. **The team will be stationed out of the Salt Lake BLM Field Office.** The crew will spend 4 to 8 days in a row in the field, often camping away from their base location. The team will travel extensively across the state of Utah, collecting data in a wide variety of settings.

Lead Technician positions may start up to 3 weeks in advance of the field season (estimated start date is March 21st) to plan field season logistics. The Lead Technician will be responsible for supporting and managing crew safety and wellbeing, coordinating field logistics and scheduling, managing the crew's equipment, and completing administrative paperwork. Before, during and after field data collection, the Lead Technician will be responsible for the organization and quality control of all data collected using iPad tablets and occasional paper forms.

Qualifications for All Positions

1. Coursework in botany, ecology, natural resources, range management, or related field required for all positions. A completed B.S. degree is preferred for all positions and required for Lead Technicians.
2. Field experience collecting scientific data, specifically vegetation sampling, soil profile descriptions, water quality sampling, and/or other environmental data required for all positions. Knowledge of wetland ecology and experience working in wetlands and/or riparian areas preferred.
3. Previous experience working on a BLM Assessment, Inventory and Monitoring (AIM) crew, either Terrestrial or Aquatic AIM, preferred.
4. Experience using dichotomous botanical keys and field guides, familiarity with the major plant families, and knowledge of western flora and/or wetland species preferred (required for at least one member of each team).
5. Experience with aerial photography (Google Earth), navigating with a topographic map, and use of GPS preferred for all positions and required for Lead Technicians. Experience with ArcGIS preferred for Lead Technicians.

6. Willingness and ability to work long hours and unusual schedules, travel extensively during the field season, share living quarters, car camp, and potentially backpack and hike long distances (up to 6 miles / day) while carrying a heavy pack (up to 40 lbs) required for all positions.
7. Willingness and ability to work with a positive attitude in field conditions that include exposure to inclement weather, rugged terrain, hot or cold weather (30–110° F), mosquitos, and poisonous plants, all while maintaining a strong commitment to team safety required for all positions.
8. Careful attention to detail and strong written and organizational skills to complete lengthy field forms required for all positions. Experience collecting data electronically using tablets or other devices preferred for all positions.
9. Strong oral communication skills for professional interactions with BLM staff and private landowners required for all positions.
10. A valid driver's license required for all positions. Experience driving 4x4 vehicles on rough roads preferred.
11. Wilderness First Aid or other field safety training preferred for all positions.

Reflecting departmental and institutional values, candidates are expected to have the ability to advance the Department's commitment to diversity and inclusion.

To apply email resume, cover letter, and three references (with phone numbers) to Katrina Castro at Katrina.Castro@colostate.edu. Please indicate if you would like to be considered for the Lead Technician and which state you would prefer to work in. In addition to Utah, CNHP will be managing crews in California, Colorado and Wyoming. Position descriptions can be found here: [Employment - Colorado Natural Heritage Program](#) Please note that you do not need to submit separate applications.

First consideration of applicants will begin January 3rd, 2022. Applications will continue to be accepted until all positions are filled or until April 1, 2022, whichever comes first. *Applicants for the Lead Technician Position are encouraged to apply early.*

As of August 16, 2021, Colorado State University has mandated vaccinations against COVID-19. Faculty and staff are required to submit their vaccine status or declare an exemption. More information about the vaccination mandate can be found [here](#).

Colorado State University is committed to providing a safe and productive learning and living community. To achieve that goal, we conduct **background investigations** for all final candidates being considered for employment. Background checks may include, but are not limited to, criminal history, national sex offender search and motor vehicle history.

Colorado State University is committed to providing an environment that is free from discrimination and harassment based on race, age, creed, color, religion, national origin or ancestry, sex, gender, disability, veteran status, genetic information, sexual orientation, gender identity or expression, or pregnancy. Colorado State University is an equal opportunity/equal access/affirmative action employer fully committed to achieving a diverse workforce and complies with all Federal and Colorado State laws, regulations, and executive orders regarding non-discrimination and affirmative action.
