

Elevation across the SRLCC

Resource Planning

- Define scope, vision, targets
- Identify critical threats
- Complete situation analysis

Assumption-based Research

- Target research for highest value
- Revise models accordingly

Outcome-based Monitoring

- Monitor effects of management actions on resources
- Assess net progress toward resource objectives
- Evaluate program accomplishments

Conservation Design

- Develop goals, strategies, assumptions, and objectives
- Develop monitoring plan
- Develop operational plan

Conservation Delivery

- Develop work plan and timeline
- Develop and refine budget
- Implement plans
