

Friday September 16th - SAVE THE DATE

19th Annual Colorado Rare Plant Symposium

Friday September 16th, 8:00 – 4:00

City of Longmont Museum, Longmont, CO

Registration is \$10 per person

Please plan to join us for the Rare Plant Symposium, held in conjunction with the Colorado Native Plant Society's Annual Conference. Hosted by the Colorado Natural Heritage Program, the symposium is an annual meeting to address status and conservation needs of rare plants in Colorado.

This year's symposium will highlight rare plants of northeast Colorado, such as *Aletes humilis*, *Mimulus gemmiparus*, *Potentilla rupincola*, *Physaria bellii*, *Spiranthes diluvialis*, and others. You can also expect updates from partners, presentations, and discussions on rare plant conservation status and research. A draft agenda is included below.

8:00 - 9:00: Registration

9:00 - 9:15: Welcome

9:15 - 10:45: Review of NE CO globally imperiled/vulnerable species

10:45 - 11:00: Break

11:00 - 12:00: Partner presentations

12:00 - 1:30: Lunch

1:30 - 2:30: Updates: CODEX models, Online Rare Plant Guide, tracking list, naming *Physaria* x 1

2:30 - 3:30: Partner updates

3:30 - 4:00: Wrap-up

Snacks, coffee, and other beverages will be provided during the meeting. Please bring your own beverage cup. Lunch will be on your own, with a selection of restaurants within 5-minutes driving distance provided. Please come for an opportunity to network with the rare plant conservation community and contribute to the conservation of Colorado's significant rare plant biodiversity. Registration information to follow.

If you have an interest in giving a partner update at the event, or for more information, please contact Jessica Smith at jp.smith@colostate.edu.

Past presentations and meeting notes are available on the CNHP website for 2004-2020 at <https://cnhp.colostate.edu/projects/colorado-rare-plant-symposia/>.
